

ACCESSORIES

EOS2 curtains can be supplied with the following accessories, to be ordered separately:

| | |
|----------------------------|-----------------------|
| AD SR Safety Relays | ▶ See page 183 |
| FMC floor mounting columns | ▶ See page 220 |
| SP deflection mirrors | ▶ See page 223 |
| LAD laser alignment device | ▶ See page 224 |
| SAV E vibrations dampers | ▶ See page 225 |
| SFB swivel fixing brackets | ▶ See page 226 |
| Connectors | ▶ See list hereunder: |

CONNECTORS EOS2 (EOS2 A emitter and receiver / EOS2 X emitter)

| Model | Code | Description |
|--------|---------|--|
| CD 5 | 1330950 | M12 straight connector, 5 poles, pre-wired cable 5 m |
| CD 10 | 1330956 | M12 straight connector, 5 poles, pre-wired cable 10 m |
| CD 15 | 1330952 | M12 straight connector, 5 poles, pre-wired cable 15 m |
| CD 20 | 1330957 | M12 straight connector, 5 poles, pre-wired cable 20 m |
| CD 25 | 1330949 | M12 straight connector, 5 poles, pre-wired cable 25 m |
| CD 50 | 1330965 | M12 straight connector, 5 poles, pre-wired cable 50 m |
| CD 95 | 1330951 | M12 90° angle connector, 5 poles, pre-wired cable 5 m |
| CD 910 | 1330958 | M12 90° angle connector, 5 poles, pre-wired cable 10 m |
| CD 915 | 1330953 | M12 90° angle connector, 5 poles, pre-wired cable 15 m |
| CDM 9 | 1330954 | M12 straight connector, 5 poles with screw terminal, PG9 cable gland |
| CDM 99 | 1330955 | M12 angle connector, 5 poles with screw terminal, PG9 cable gland |

CONNECTORS EOS2 X receivers

| Model | Code | Description |
|----------|---------|--|
| C8D 5 | 1330980 | M12 straight connector, 8 poles, pre-wired cable 5 m |
| C8D 10 | 1330981 | M12 straight connector, 8 poles, pre-wired cable 10 m |
| C8D 15 | 1330982 | M12 straight connector, 8 poles, pre-wired cable 15 m |
| C8D 25 | 1330967 | M12 straight connector, 8 poles, pre-wired cable 25 m |
| C8D 40 | 1330966 | M12 straight connector, 8 poles, pre-wired cable 40 m |
| C8D 95 | 1330983 | M12 90° angle connector, 8 poles, pre-wired cable 5 m |
| C8D 910 | 1330984 | M12 90° angle connector, 8 poles, pre-wired cable 10 m |
| C8D 915 | 1330985 | M12 90° angle connector, 8 poles, pre-wired cable 15 m |
| C8DM 11 | 1330978 | M12 straight connector, 8 poles with screw terminal, PG9/11 cable gland |
| C8DM 911 | 1330979 | M12 90° angle connector, 8 poles with screw terminal, PG9/11 cable gland |

CONNECTION BETWEEN MASTER AND SLAVE

| Model | Code | Description |
|---------|---------|--|
| CDS 03 | 1330990 | 0,3 m pre-wired cable with 2 straight connectors, M12 5-pole |
| CIBE 3 | 1360960 | 3 m pre-wired cable with 2 straight connectors, M12 5-pole |
| CIBE 5 | 1360961 | 5 m pre-wired cable with 2 straight connectors, M12 5-pole |
| CIBE 10 | 1360962 | 10 m pre-wired cable with 2 straight connectors, M12 5-pole |
| CIBE 25 | 1360963 | 25 m pre-wired cable with 2 straight connectors, M12 5-pole |

VISION

VISION

The Vision Type 2 family of safety light curtains is the ideal solution for the protection of the majority of industrial applications in Category 2.

Its features include:

- Extremely easy connection and installation, thanks to the M12 connectors and the use of standard cables.
- Integration of the main safety functions, including self monitoring of the safety circuits and, for the VX / VXL / MXL models, external device monitoring (EDM) and the Start / Restart interlock function.
- The built-in auto-test function, activated automatically and periodically, without interruption of the operation of the machine being controlled.
- The breadth of the range, including Master / Slave models for cascade connection of two light curtains, the VXL models, with the lowest cost/performance ratio and the MXL models with built-in Muting function.
- The utmost reliability in the field, thanks to the rugged construction and to the high level of immunity to external disturbances (optical, EMC, etc.).

Special versions in WT/WTH watertight housing available on request.

▶ See page 197

Vision light curtains may be connected to the dedicated safety interfaces series AD SR, or directly to contactors actuated and controlled by the light curtain, or to MOSAIC or to suitable commercial safety modules or safety PLCs.

Type 2 – SIL 2 – SILCL 2 – PL d – Cat. 2

THE VISION RANGE

| VISION V L | VISION V H | VISION VX | VISION VX LR Long Range | VISION VX M - S | VISION VXL | VISION MXL See following table |
|--|--------------------|--|---|--|---|---|
| Max. range 6 m | Max. range 16 m | Max. range selectable 6 or 18 m | Max. range selectable 22 or 60 m | Master and Slave models for serial connection of two light curtains even of different height and resolution | Max. range 8 m | Built-in Muting function with 2 sensors operating logic |
| The ideal Type 2 safety light curtain for a simple interface with safety modules or PLC | | The ideal Type 2 safety light curtain for directly control- ling and monitoring the circuits of the machine, without the need for external safety modules | The ideal safety light curtain for protection applications with a long range, also on several sides using deflection mirrors | Ideal solution for con- necting two light curtains in series and constituting a combined detection of the hand and of the presence of a person or of two different sides of the machine | Similar to the VX models but available in a limited number of versions; especially conceived to satisfy the most frequent application needing at a very competitive price | Can offer a complete range of essential functions and satisfy the most common application needs where the Muting function is required, together with a very competitive price |
| Types of detection: resolution 20, 30, 40 mm for hand detection resolution 50, 90 mm for detection of the body in a hazardous area 2, 3, 4 beams for detection of the body in access control | | | Types of detection: 2, 3, 4 beams for detection of the body in access monitoring | Types of detection: resolution 30, 40, 50 mm for hand detection 2, 3 beams for detection of the body in access control | Types of detection: resolution 30, 40 mm for hand detection 2, 3, 4 beams for detection of the body in access control | |
| Electrical connections: M12 5-pole connectors | | Electrical connections: M12 5-pole connectors for emitter and M12 8-pole connectors for receiver | | | | Electrical connections: M12 5-pole connectors for emitter and M16 12-pole connectors for receiver |
| Automatic Start/Restart | | Built-in manual or automatic Start/Restart selectable | | | | |
| External relay monitoring (EDM) through external AD SR1 interface | | Feedback input for control of external relays (EDM) | | | | |
| 2 self-testing solid state PNP safety outputs protected against short circuits and overloads | | | | | | |

THE VISION MXL RANGE

| | | |
|--|--|--|
|  <p>MXL SERIES</p> | <p>MXL and MXL U SERIES</p> <p>Both have two dedicated inputs on the M16 connector for connection of external Muting sensors of any type such as photocells, proximity switches, limit switches, etc.</p> | <p>MXL</p> <p>The MXL series is recommended for Muting applications:</p> <ul style="list-style-type: none"> Where personnel is supposed to access the area under control during the non-dangerous part of the machine cycle (e. g. manual load/unload of product). For two-way transit of material through the gate to be controlled by the light curtain (e.g. palletizers). |
| | | <p>MXL U</p> <p>Only for muting applications where one-way transit (exit only) of material through the gate is controlled by the light curtain (e.g. palletizers).</p> |
|  <p>MXL L SERIES</p> | <p>MXL L SERIES</p> <p>The MXL L series, with 2 or 3 beams for access control, uses an original system of 2 horizontal arms (one for the emitter and one for the receiver) with built-in, pre-wired and pre-aligned photoelectric Muting sensors. The arms can be adjusted in height and angle in order to create a detection plane that is more or less angled, with the purpose to achieve correct and constant detection of the material in transit and therefore reliable operation of the protection system. This ensures the maximum speed and simplicity of installation. The MXL L series manages the Muting function in one-way mode and is particularly suitable for protecting the outfeed gates of palletizing systems.</p> | |
|  <p>MXL T SERIES</p> | <p>MXL T SERIES</p> <p>The MXL T series, with 2 or 3 beams for access control, features four horizontal arms (two for the emitter and two for the receiver) with built-in, pre-wired and pre-aligned photoelectric Muting sensors. The arms can be adjusted in height and angle in order to create a detection plane that is more or less angled, with the purpose to achieve correct and constant detection of the material in transit and therefore reliable operation of the protection system. This ensures the maximum speed and simplicity of installation. The MXL T series manages the Muting function in two-way mode for the protection of the infeed/outfeed gates in palletizing systems.</p> | |

VISION V

MAIN FEATURES

Automatic start/restart.
 Two self-testing solid state PNP safety outputs.
 Periodic auto-test every 0.5 sec.
 All connections and configuration by means of M12 connectors.
 Use of unshielded cables up to 100 m.
 Suppression of optical interference by means of range selection.
 Start/Restart interlock and EDM via external AD SR1 interface.

TECHNICAL FEATURES

| | |
|---|--|
| Safety level | Type 2 according to IEC/TS 61496-2 SIL 2 – SILCL 2 according to IEC 61508 - IEC 62061 PL d – Cat. 2 according to ISO 13849-1 |
| Protected heights (mm) | 160 ... 1810 |
| Resolutions (mm) | 20, 30, 40, 50, 90 |
| Number of beams for body detection in access control | 2, 3, 4 |
| Max. range (m) | 6 for Vision V L models 16 for Vision V H models |
| Response time (ms) | 5,5 ... 28 |
| Safety outputs | 2 PNP auto-controlled - 500 mA at 24 VDC with short-circuit, overload, polarity reversal protection |
| Signalling | LEDs for light curtain's status and diagnostic |
| Restart | automatic |
| Power supply (VDC) | 24 ± 20% |
| Electrical connections | M12 5-pole |
| Max. cable length (m) | 100 |
| Operating temperature (°C) | 0 ... 55 |
| Protection rating | IP 65 |
| Fastening modes | back slot, side slot or to the top and lower end with swivel brackets |
| Cross section (mm) | 35 x 45 |

VISION VX WITH BUILT-IN CONTROL FUNCTIONS

MAIN FEATURES

Two self-testing solid state PNP safety outputs.
 Periodic auto-test every 0.5 sec.
 Built-in Start/Restart interlock, selectable.
 Feedback input for control of external relays (EDM).
 All connections and configuration by means of M12 connectors.
 Use of unshielded cables up to 100 m.
 Suppression of optical interference by means of range selection.
 Master and Slave models for serial connection of 2 light curtains.
 Maximum length of the connections between Master and Slave: 50 metres, with unshielded cable.
 Models with 2, 3 and 4 beams Long Range, max. 60 meters.

VISION VX WITH BUILT-IN CONTROL FUNCTIONS

MASTER/SLAVE MODELS

Master/Slave models permit series connection of two safety light curtains achieving two main advantages:
a single pair of safety outputs;
no interference between light curtains installed adjacent to one another.

EXAMPLE OF SERIAL CONNECTION BETWEEN MASTER AND SLAVE LIGHT CURTAINS

It is possible to combine any Master model with any Slave model.

All the electrical connections are made using 5-pole M12 connectors, except for the Master receiver, which requires an 8-pole M12 connector.

Pre-wired cables with 2 connectors are available for the connection between Master and Slave.

EXAMPLE OF SERIAL CONNECTION BETWEEN MASTER AND SLAVE LIGHT CURTAINS

The Master light curtain is positioned horizontally for detecting the presence of the person while the vertical Slave light curtain detects finger or hand.

However, it is possible to invert the combination and have the Master light curtain positioned vertically for hand protection and the Slave light curtain horizontally for detecting the presence of the person.

The application illustrated is one of the most common: the horizontal light curtain is used for eliminating the possibility for the operator not to be detected between the vertical light curtain and the dangerous machine at the start or restart of the system.

EXAMPLE OF SERIAL CONNECTION BETWEEN MASTER AND SLAVE LIGHT CURTAINS FOR THE PROTECTION OF 2 SIDES OF THE MACHINE

In the Vision VX light curtains, the length of the connection cable between Master and Slave can be up to 50 metres.

This characteristic enables the application of 2 light curtains in series positioned on the front and back of the dangerous machine, with a single connection towards the power supply and control circuits of the machine.

TYPE 2 SAFETY LIGHT CURTAIN

VISION VXL WITH BUILT-IN CONTROL FUNCTIONS

MAIN FEATURES

Built-in Start/Restart interlock, selectable.
 Two self-testing solid state PNP safety outputs.
 Periodic auto-test every 0,5 sec.
 Feedback input for control of external relays (EDM).
 All connections and configuration by means of M12 connectors.
 Use of unshielded cables up to 100 m.

TECHNICAL FEATURES

VISION MXL

VISION MXL WITH MUTING FUNCTION

Vision MXL is a range of safety light curtains for the protection of dangerous systems with Muting function. Models MXL L and MXL T are available with integrated Muting sensors.

MXL features include the following:

- Extremely easy connection and installation, through the use of standard connectors and unshielded cables up to 100 m
- Integration of the main safety functions including auto-control of static outputs, control of external contactors (EDM) and Start/Restart interlock
- Integrated auto-test, activated automatically and periodically, without discontinuity to the operation of the machine being controlled
- Integrated Muting function and Muting sensors on models MXL L and MXL T
- Set-up of each function can be done through main connector. No need of software configuration
- Excellent field reliability, assured by robust construction and high-level immunity from external interference (optical, EMC, etc.)
- Comprehensive range, offering outstanding cost effectiveness.

For Vision MXL light curtains is available a range of specific accessories including pre-wired cable and MXJB Connection Boxes, complete with Restart and Override controls, plus Muting lamp and integrated safety relays for straightforward, quick and reliable interfacing of the safety light curtains with the machine being controlled.

MAIN FEATURES

Integrated Muting function with two-sensors bi-directional or mono-directional logic.
High flexibility in terms of interface configurations, Muting logics and time-out.
Selectable overrides (two types).

Muting enable input.

Each configuration is implemented via hardware through main M16 12-pole connector.
No need for software configuration via PC.

Unshielded cables up to 100 m.

Two safety PNP static outputs, auto-controlled.

Periodic auto-test every 0,5 sec.

Integrated selectable Start/Restart interlock.

Feedback input for controlling external relays (EDM).

Models MXL L and MXL T with integrated Muting sensors, pre-aligned, adjustable for height and angle.

Interconnection box MXJB for quick connection of light curtains and availability of the main controls needed for operation close to the gate to be protected.

Type 2 – SIL 2 – SILCL 2 – PL d – Cat. 2

VISION MXL WITH MUTING FUNCTION

Vision MXL offer a cost-effective solution for the most common palletized applications.

With the MXL L and MXL T models, system installation is fast and simple; moreover, compliance with the standards requirements regarding the geometry of the Muting sensors and all the other safety parameters is guaranteed (IEC/TS 62046)

MXL

Two-way Muting with 2 sensors. Entry/Exit

- Max. time between the 2 Muting activation signals: 4 sec.
- Possible use with any type of external Muting sensors such as photocells, proximity switches, limit switches, etc.
- Muting Time-out 30 sec, 90 min or infinite, selectable.
- Muting Enable input.

Characteristics

- Suitable solution for the most common entry/exit pallet applications.
- Muting enable input allows to start a Muting sequence only when needed by the machine cycle. I.e. Muting enabled only when the conveyor is moving.

MXL series is recommended also in those applications where personnel is allowed to access the monitored area during the non-dangerous part of the machine cycle. (i.e. manual material loading/unloading). [See page 39.](#)

MXL U

One-way Muting with 2 sensors – Exit only

- Max. time between the 2 Muting activation signals: 4 sec.
- Possible use with any type of external Muting sensors such as photocells, proximity switches, limit switches, etc.
- Muting Time-out 30 sec, 90 min or infinite, selectable.
- Muting Enable input.

Characteristics

- The light curtain only allows pallet outfeed.
- The Muting function can only be activated from inside the protected zone. No possibility to activate a Muting sequence from the outside.
- Elimination of bulk outside the protected area, as the Muting sensors are only present inside the area.
- Correct Muting sequence even in the presence of a pallet with reduced width and/or length or not centred with respect to the conveyor.
- Muting enable input allows to start a Muting sequence only when needed by the machine cycle. I.e. Muting enabled only when the conveyor is moving.

Safety level

TYPE 2

SIL 2 – SILCL 2
PL d – Cat. 2

MXL L

One-way Muting with 2 sensors – Exit only 2 integrated photoelectric sensors with crossed beams

- 2, 3 beams models.
- Max. time between the 2 Muting activation signals: 4 sec.
- Operating range: 1 ... 2,5 meters.
- Muting sensor elements adjustable in height and angle.
- Muting Time-out 30 sec, 90 min or infinite, selectable.
- Muting Enable input.

Characteristics

- Reduced installation time and costs.
- With MXL L models, sensors are positioned in compliance with the regulations regarding the geometry of Muting sensors (IEC TS 62046) and all the other safety parameters; this makes it possible to avoid dangers arising from positioning errors and from possible tampering.
- The light curtain only allows pallet outfeed.
- The Muting function can only be activated from inside the protected zone. No possibility to activate a Muting sequence from the outside.
- Elimination of bulk outside the protected area, as the Muting sensors are only present inside the area.
- Correct Muting sequence even in the presence of a pallet with reduced width and/or length or not centred with respect to the conveyor.
- Muting enable input allows to start a Muting sequence only when needed by the machine cycle. I.e. Muting enabled only when the conveyor is moving.

MXL T

Two-way Muting with 2 sensors – Entry/Exit 2 integrated photoelectric sensors with crossed beams

- 2, 3 beams models.
- Max. time between the 2 Muting activation signals: 4 sec.
- Operating range: 1 ... 2,5 meters.
- Muting sensor elements adjustable in height and angle.
- Muting Time-out 30 sec, 90 min or infinite, selectable.
- Muting Enable input.

Characteristics

- Reduced installation time and costs.
- With MXL T models, sensors are positioned in compliance with the regulations regarding the geometry of Muting sensors (IEC TS 62046) and all the other safety parameters; this makes it possible to avoid dangers arising from positioning errors and from possible tampering.
- Standard solution for the most common entry/exit pallet applications.
- Muting enable input allows to start a Muting sequence only when needed by the machine cycle. I.e. Muting enabled only when the conveyor is moving.

SENSOR ELEMENT ADJUSTMENT - MXL L and MXL T versions

The sensor elements present in the Vision MXL L and MXL T versions are adjustable in height and angle.

This important and unique feature enables the inclination of the detection plane of the sensors to obtain correct and constant detection of irregular materials in transit.

MXJB CONNECTION BOX FOR VISION MXL LIGHT CURTAINS

Connection boxes MXJB are accessory devices designed for quick, reliable connection of Vision MXL light curtains and to ensure that major operating controls needed for operation are available in the guarded area.

MAIN FEATURES

- Start/Restart push button
- Key selector switch for Override control function
- Muting-on indicator lamp
- Light curtain connectors
- Dip-switch for light curtain functions configuration
- 2 guided-contacts safety relays operated and controlled by the light curtain
- Internal terminal blocks for cable connections.
- Selector for connection of external Muting lamp.
- Selector for internal or external relay control
- Connection for Muting enable input
- Connection with cable gland for cable passage in output towards the machine

MXJB is pre-set as manual Restart. By means the dedicated 5 meters cable CJBR5A, available as accessory, it is possible to make it work as automatic Restart.

Complying with:

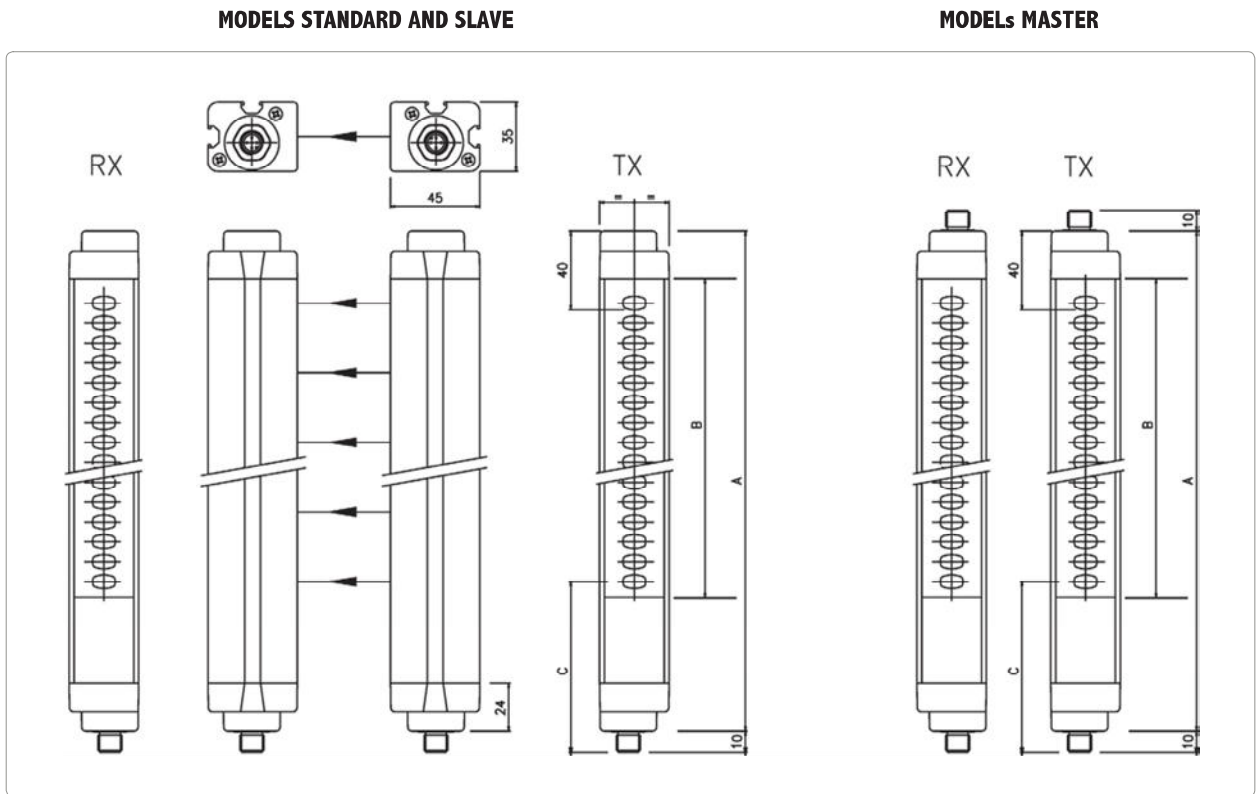

- 2004/108/EC "Electromagnetic Compatibility (EMC)"
- 2006/95/EC "Low Voltage Directive (LVD)"
- UL (C+US) mark for USA and Canada.

TECHNICAL FEATURES

| MODELS | MXJB 1 | MXJB 3 |
|-----------------------------|--|-----------------------------|
| Ordering codes | 1360934 | 1360935 |
| Safety relay output | 2 NO 2A 250 VAC | 2 NO + 1 NC * 2A 250 VAC |
| Start/Restart button | | yes |
| Override command | | yes |
| Built-in Muting-lamp | | yes |
| Connectors | M23 19-pole for receiver connection M12 5-pole for emitter connection | |
| Dimensions - h x w x d (mm) | 110 x 180 x 110 | |

* In MXJB 3 and MXJB 4 boxes each NO safety output line is interrupted twice by the two relays

DIMENSIONS (mm)

| Models | 150 | 300 | 450 | 600 | 750 | 900 | 1050 | 1200 | 1350 | 1500 | 1650 | 1800 |

| A | 251 | 401 | 551 | 701 | 851 | 1001 | 1151 | 1301 | 1451 | 1601 | 1751 | 1901 |
| B (protected area) | 160 | 310 | 460 | 610 | 760 | 910 | 1060 | 1210 | 1360 | 1510 | 1660 | 1810 |
| C | 85 | | | | | | | | | | | |
| Mounting | Complete set of 4 LS type brackets included in the package | | | | | | | Complete set of 6 LS type brackets included in the package | | | | |

| Models | 2B | 3B | 4B |
|----------|--|------|------|
| A | 701 | 1001 | 1101 |
| B | 510* | 810* | 910* |
| C | 135 | | |
| Mounting | Complete set of 4 LS type brackets included in the package | | |

* for these models the protected height is only indicative and is calculated based on the beams spacing.

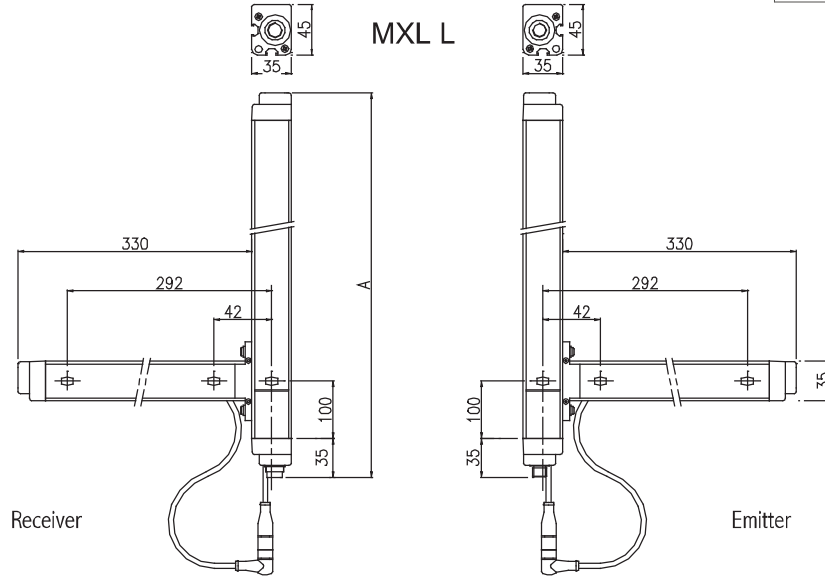

WARNING!

When the light curtain works in the presence of strong vibrations (presses, weaving machines etc.), in order to avoid damages to the light curtain it is necessary to use the anti-vibration dampers SAV (available as accessories)
 When long range protections or perimeter protections employing mirrors have to be realised it is advisable to use the LAD laser pointer as an alignment aid, as well as the adjustable swivel fastening brackets SFB.

VISION

VISION MXL L

Note: The muting arms can be ordered separately.

► See page 83

ORDERING INFORMATION

Each Vision light curtain comprises:

| |
|--|
| Emitter and Receiver pair |
| Mounting brackets and T-nuts |
| CD-ROM containing the multi-language instruction manual complete with CE declaration of conformity |
| Quick installation guide |

ACCESSORIES

For Vision light curtains the following accessories, to be ordered separately, are available:

| | |
|---|----------------------|
| AD SR Safety Relays | ▶ See page 183 |
| FMC floor mounting columns | ▶ See page 220 |
| SP deflection mirrors | ▶ See page 223 |
| LAD Laser alignment device | ▶ see page 224 |
| SAV vibrations dampers | ▶ See page 225 |
| SFB swivel fixing brackets | ▶ See page 226 |
| Connectors | ▶ See list hereunder |
| Addition muting arm for L Muting SLA and T Muting STA | ▶ See page 83 |
